Chemical Process Technology

Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

Chemical Process Technology Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

With a focus on actual industrial processes, e.g. the production of light alkenes, synthesis gas, fine chemicals, polyethene, it encourages the reader to think “out of the box” and invent and develop novel unit operations and processes. Reflecting today’s emphasis on sustainability, this edition contains new coverage of biomass as an alternative to fossil fuels, and process intensification.

The second edition includes:

- New chapters on Process Intensification and Processes for the Conversion of Biomass
- Updated and expanded chapters throughout with 35% new material overall
- Text boxes containing case studies and examples from various different industries, e.g. synthesis loop designs, Sasol I Plant, Kaminsky catalysts, production of Ibuprofen, click chemistry, ammonia synthesis, fluid catalytic cracking
- Questions throughout to stimulate debate and keep students awake!
- Richly illustrated chapters with improved figures and flow diagrams

Chemical Process Technology, Second Edition is a comprehensive introduction, linking the fundamental theory and concepts to the applied nature of the subject. It will be invaluable to students of chemical engineering, biotechnology and industrial chemistry, as well as practising chemical engineers.

From reviews of the first edition:

“The authors have blended process technology, chemistry and thermodynamics in an elegant manner... Overall this is a welcome addition to books on chemical technology.” – The Chemist

“Impressively wide-ranging and comprehensive... an excellent textbook for students, with a combination of fundamental knowledge and technology.” – Chemistry in Britain (now Chemistry World)

From reader reviews:

Robert Franco:

Now a day individuals who Living in the era just where everything reachable by talk with the internet and the resources within it can be true or not demand people to be aware of each data they get. How a lot more to be smart in having any information nowadays? Of course the correct answer is reading a book. Reading through a book can help men and women out of this uncertainty Information specially this Chemical Process Technology book since this book offers you rich facts and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it as you know.

Betty Borgen:

This Chemical Process Technology usually are reliable for you who want to be described as a successful person, why. The reason why of this Chemical Process Technology can be one of many great books you must have is giving you more than just simple reading food but feed you actually with information that probably will shock your earlier knowledge. This book is usually handy, you can bring it everywhere and whenever your conditions throughout the e-book and printed kinds. Beside that this Chemical Process Technology forcing you to have an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that could it useful in your day task. So , let's have it and luxuriate in reading.

Daniel Gordon:

In this age globalization it is important to someone to acquire information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher in which print many kinds of book. Typically the book that recommended for your requirements is Chemical Process Technology this publication consist a lot of the information of the condition of this world now. This specific book was represented how does the world has grown up. The language styles that writer make usage of to explain it is easy to understand. The particular writer made some investigation when he makes this book. That's why this book acceptable all of you.

George Gentry:

Don't be worry should you be afraid that this book will probably filled the space in your house, you can have it in e-book method, more simple and reachable. That Chemical Process Technology can give you a lot of close friends because by you looking at this one book you have point that they don't and make you more like an interesting person. This book can be one of one step for you to get success. This publication offer you information that might be your friend doesn't recognize, by knowing more than different make you to be great men and women. So , why hesitate? Let's have Chemical Process Technology.
