Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering)

Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering)

Use the GPU Successfully in Your Radiotherapy Practice

With its high processing power, cost-effectiveness, and easy deployment, access, and maintenance, the graphics processing unit (GPU) has increasingly been used to tackle problems in the medical physics field, ranging from computed tomography reconstruction to Monte Carlo radiation transport simulation. **Graphics Processing Unit-Based High Performance Computing in Radiation Therapy** collects state-of-the-art research on GPU computing and its applications to medical physics problems in radiation therapy.

Tackle Problems in Medical Imaging and Radiotherapy

The book first offers an introduction to the GPU technology and its current applications in radiotherapy. Most of the remaining chapters discuss a specific application of a GPU in a key radiotherapy problem. These chapters summarize advances and present technical details and insightful discussions on the use of GPU in addressing the problems. The book also examines two real systems developed with GPU as a core component to accomplish important clinical tasks in modern radiotherapy.

Translate Research Developments to Clinical Practice

Written by a team of international experts in radiation oncology, biomedical imaging, computing, and physics, this book gets clinical and research physicists, graduate students, and other scientists up to date on the latest in GPU computing for radiotherapy. It encourages you to bring this novel technology to routine clinical radiotherapy practice.

From reader reviews:

Leslie Marcellus:

The guide untitled Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) is the reserve that recommended to you to study. You can see the quality of the reserve content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The article author was did a lot of investigation when write the book, and so the information that they share for your requirements is absolutely accurate. You also will get the e-book of Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) from the publisher to make you considerably more enjoy free time.

Victor Banister:

Reading can called imagination hangout, why? Because when you are reading a book specially book entitled Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) your head will drift away trough every dimension, wandering in each and every aspect that maybe unidentified for but surely can be your mind friends. Imaging each word written in a guide then become one application form conclusion and explanation this maybe you never get ahead of. The Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) giving you one more experience more than blown away your head but also giving you useful info for your better life in this era. So now let us present to you the relaxing pattern is your body and mind will be pleased when you are finished reading through it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Elliott Preciado:

Reading a book for being new life style in this yr; every people loves to study a book. When you go through a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. In order to get information about your study, you can read education books, but if you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, and soon. The Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) offer you a new experience in reading through a book.

John Hayes:

As we know that book is essential thing to add our know-how for everything. By a book we can know everything we want. A book is a group of written, printed, illustrated as well as blank sheet. Every year was exactly added. This book Graphics Processing Unit-Based High Performance Computing in Radiation Therapy (Series in Medical Physics and Biomedical Engineering) was filled concerning science. Spend your

time to add your knowledge about your science competence. Some people has several feel when they reading any book. If you know how big selling point of a book, you can truly feel enjoy to read a e-book. In the modern era like right now, many ways to get book which you wanted.
