DO IT NOW! W. Clement Stone's first commandment of success is Do It Now! Considering his viewpoint and popular command, those of us who follow his advice accomplish more, have less stress, live with fewer regrets, become more self-disciplined, and demonstrate personal persistence. All of these qualities contribute to making our unique world a better place in which to live simply by doing it now. By reading a chapter a week and following through with action appropriate to the message, you will become known in a very short period of time in your local community for being a person who grabs the reins and advances forward. If you do a little extra, you will be known nationally as a person who can be counted on to get the job done. And finally, if you go the extra mile by doing just a little beyond what you did previously, you will be known in the international circuit as a person who is a doer and creator. By working through this process you become the scriptwriter for your life's story and the creator of your own advancement and success. Do It Now! You will sacrifice all the goodness life has to offer if you fail to do so. Be Your Very Best Always. Judith Williamson Director, Napoleon Hill World Learning Center
