The Hunchback Of Notre Dame - The Original Classic Edition Victor Hugo

Victor Hugo, the French poet and writer, who wished to change how novels were written and read, wrote The Hunchback of Notra-Dame in the beginning of his career. In contrast to Les Miserables, which is his more celebrated work, and was written several decades after the Notra-dame novel, the present piece is not only laced with more humor and romance but also stands out as a piece where the young poet in Hugo pours out a ravishing range of similes. Just for the pure magic of his metaphors and similes that make all his descriptions so poetic, so powerful Notra-Dame is worth reading.

The story itself reads like a fanciful movie, an ugly hunchback, Quasimodo is brought up by a Priest Frollo, the archdeacon of Notradame. The hunchback is hence attached like a dog to his master to him. The English title of Hunchback of Notra-dame is a misnomer, for the original is called Notra-dame de Paris, and English title lets us assume that it is the story of Hunchback as hero, while the original title asserts it is story set in Notradame and has charaters who reside in it, or live in its shadows. The Priest Calude Frollo, leaving his pursuit of science and philosophy meanders to a path of unrelenting lust for the gypsy dancer, Esmeralda. A writer, Pierre Grigorne, gets into a set of bizarre circumstances, where a token marriage attaches him to the gypsy. Phoebus, captain of Kings Archers is the object of the affection of Esmeralda herself.

Besides these characters, there is a madwoman who lives in confinement, pining for her lost child, who was carried off by gypsies, and hates Esmeralda. There is the goat Djali, who performs tricks with Esmeralda, Jehan who is Claude Frollos irreligious brother, King Louis IV - who interacts with Claude on issues of science, and the most important character, who lurks like an existence all though, is the Notra-Dame itself.
