Excerpt from Life of James G. Blaine, the Plumed Knight, Editor, Representative, Speaker, Senator, Cabinet Minister, Diplomat and True Patriot: A Graphic Record of His Whole Illustrious Career, From the Cradle to the Grave

In the present instance it is not intended to attempt a work of such a character. A complete history of any man cannot be written in his own age, A full, impartial and philosophic estimate of his worth, and of the extent and importance and effectiveness of his work in the world, can only be made when he has passed into a more extended prospective than contemporary vision affords.

It is possible, however, in considerable measure, to separate the individual from his environment, and to tell the simple story of his personal doings. Especially well may this be done in the case of such a forceful and distinct personality at that of James G. Blaine. It will be to paint a panorama, in which the central figure stands forth conspicuously, outlined in bold relief, while his comrades and all the landscape about them, are but faintly sketched.
