Responsible Development: Vulnerable Democracies, Hunger and Inequality (Routledge Studies in the Growth Economies of Asia) Omar Noman

Until the dramatic economic collapse of 1997, East Asia was the symbol of a successful market-led development strategy for Western governments, aid agencies and academics, despite underlying concerns about a lack of rights and freedoms. The crisis changed Asia and the world; currency depreciations, personal and state indebtedness, mass unemployment and rioting brought the paternalistic capitalist phase to an end in Asia. The decade following the economic crisis has seen a swift response, with the major restructuring of Asian economies, improved corporate governance, banks recapitalized, more attention paid to the environment and foreign exchange reserves restored so the IMF became redundant in Asia.

Dividing the countries that emerged from the crisis into three categories – the Insecure Rich, the New Aspirants for Prosperity and the Danger Zone – Noman analyses the complex Asian recovery and future challenges within the framework of Responsible Development, an agenda for Asia that emphasizes the simultaneous challenge of building sustainable democracies, a viable environment and an equitable economy. Covering the many related issues that pose a threat to Asian economic stability – climate change, religious fascism, inequality and hunger – this book will have particular relevance in the areas of development studies, economics, international politics and Asian studies.
