Economic Forecasting

Graham Elliott, Allan Timmermann

Economic Forecasting Graham Elliott, Allan Timmermann

Economic forecasting involves choosing simple yet robust models to best approximate highly complex and evolving data-generating processes. This poses unique challenges for researchers in a host of practical forecasting situations, from forecasting budget deficits and assessing financial risk to predicting inflation and stock market returns. *Economic Forecasting* presents a comprehensive, unified approach to assessing the costs and benefits of different methods currently available to forecasters.

This text approaches forecasting problems from the perspective of decision theory and estimation, and demonstrates the profound implications of this approach for how we understand variable selection, estimation, and combination methods for forecasting models, and how we evaluate the resulting forecasts. Both Bayesian and non-Bayesian methods are covered in depth, as are a range of cutting-edge techniques for producing point, interval, and density forecasts. The book features detailed presentations and empirical examples of a range of forecasting methods and shows how to generate forecasts in the presence of large-dimensional sets of predictor variables. The authors pay special attention to how estimation error, model uncertainty, and model instability affect forecasting performance.

- Presents a comprehensive and integrated approach to assessing the strengths and weaknesses of different forecasting methods
- Approaches forecasting from a decision theoretic and estimation perspective
- Covers Bayesian modeling, including methods for generating density forecasts
- Discusses model selection methods as well as forecast combinations
- Covers a large range of nonlinear prediction models, including regime switching models, threshold autoregressions, and models with time-varying volatility
- Features numerous empirical examples
- Examines the latest advances in forecast evaluation
- Essential for practitioners and students alike

From reader reviews:

Ricky Copeland:

Book will be written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. We all know that that book is important issue to bring us around the world. Next to that you can your reading expertise was fluently. A e-book Economic Forecasting will make you to possibly be smarter. You can feel much more confidence if you can know about everything. But some of you think that will open or reading a book make you bored. It is far from make you fun. Why they may be thought like that? Have you searching for best book or suitable book with you?

Jennifer Galaviz:

The book Economic Forecasting can give more knowledge and information about everything you want. Why then must we leave the good thing like a book Economic Forecasting? A number of you have a different opinion about publication. But one aim this book can give many facts for us. It is absolutely right. Right now, try to closer with your book. Knowledge or details that you take for that, it is possible to give for each other; you can share all of these. Book Economic Forecasting has simple shape however, you know: it has great and massive function for you. You can appearance the enormous world by available and read a publication. So it is very wonderful.

David Trudeau:

Reading can called thoughts hangout, why? Because if you are reading a book specifically book entitled Economic Forecasting your head will drift away trough every dimension, wandering in each and every aspect that maybe not known for but surely will end up your mind friends. Imaging every single word written in a publication then become one contact form conclusion and explanation that will maybe you never get just before. The Economic Forecasting giving you another experience more than blown away your mind but also giving you useful data for your better life with this era. So now let us teach you the relaxing pattern is your body and mind will likely be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

Daniel Love:

Many people spending their time frame by playing outside along with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to spend your whole day by studying a book. Ugh, you think reading a book can definitely hard because you have to bring the book everywhere? It all right you can have the e-book, taking everywhere you want in your Mobile phone. Like Economic Forecasting which is finding the e-book version. So , try out this book? Let's view.
