Gerald G. Briggs BPharm FCCP, Roger K. Freeman MD, Sumner J. Yaffe MD

Drugs in Pregnancy and Lactation: A Reference Guide to Fetal and Neonatal Risk Gerald G. Briggs BPharm FCCP, Roger K. Freeman MD, Sumner J. Yaffe MD

An A-Z listing of drugs by generic name. Each monograph summarizes the known and/or possible effects of the drug on the fetus. It also summarizes the known/possible passage of the drug into the human breast milk.

A careful and exhaustive summarization of the world literature as it relates to drugs in pregnancy and lactation. Each monograph contains six parts:

- Generic US name
- Pharmacologic class
- Risk factor
- Fetal risk summary
- Breast feeding summary
- References

Features for this edition include:

- 1200 commonly prescribed drugs including 105 new drugs
- New mobile application to access the content on the go*
- Cross-referenced combination drugs
- New list of drugs contraindicated during breastfeeding
- New list of drugs contraindicated in pregnancy
- List of drugs known to cause human developmental toxicity
- More summaries at the beginning for pregnancy and breastfeeding
- Brand new trim size 8.5 x 11
- 4-color design
- Consistently formatted throughout
- Companion site includes fully searchable text and updates from the Briggs newsletter

*App included with the book is a free version with limited content. An in-app purchase is available for an upgrade to the full app content.

With the ever changing drug information and guidelines, make sure you have the most current edition of Briggs Drugs in Pregnancy and Lactation to provide your patients with the best care.

From reader reviews:

Edris Sibert:

Do you have favorite book? For those who have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each reserve has different aim as well as goal; it means that publication has different type. Some people truly feel enjoy to spend their time and energy to read a book. They are reading whatever they take because their hobby will be reading a book. What about the person who don't like reading a book? Sometime, particular person feel need book when they found difficult problem or maybe exercise. Well, probably you will need this Drugs in Pregnancy and Lactation: A Reference Guide to Fetal and Neonatal Risk.

James Hose:

Information is provisions for folks to get better life, information currently can get by anyone from everywhere. The information can be a knowledge or any news even restricted. What people must be consider if those information which is inside former life are challenging be find than now could be taking seriously which one works to believe or which one typically the resource are convinced. If you have the unstable resource then you understand it as your main information you will have huge disadvantage for you. All those possibilities will not happen with you if you take Drugs in Pregnancy and Lactation: A Reference Guide to Fetal and Neonatal Risk as your daily resource information.

John Wilson:

Reading can called imagination hangout, why? Because when you find yourself reading a book mainly book entitled Drugs in Pregnancy and Lactation: A Reference Guide to Fetal and Neonatal Risk your head will drift away trough every dimension, wandering in each and every aspect that maybe unknown for but surely can become your mind friends. Imaging each and every word written in a guide then become one form conclusion and explanation in which maybe you never get previous to. The Drugs in Pregnancy and Lactation: A Reference Guide to Fetal and Neonatal Risk giving you one more experience more than blown away your head but also giving you useful info for your better life with this era. So now let us demonstrate the relaxing pattern at this point is your body and mind is going to be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary shelling out spare time activity?

Alex Tipton:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library or to make summary for some reserve, they are complained. Just very little students that has reading's soul or real their passion. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading really. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this
