Edward P. Crapol

James G. Blaine: Architect of Empire (Biographies in American Foreign Policy) Edward P. Crapol

In *James G. Blaine: Architect of Empire*, author Edward P. Crapol assesses Blaine's role as an architect of empire and revisits the ambitious imperialistic goals of this two-time secretary of state. Crapol examines Blaine's pivotal role in shaping American foreign relations and looks at some of the underlying reasons why the U.S. acquired an overseas empire at the turn of the century.

This text will acquaint readers with how Blaine sought to win global economic supremacy and intended to transform the U.S. into the world's number one power. The book also lends insight into Blaine's efforts to spark energetic governmental action in revitalizing the merchant marine, building a first-class navy, using the coercive tactic of reciprocity, achieving unilateral control of an isthmian canal, and creating U.S. political and economic hegemony in the hemisphere. In addition, *James G. Blaine: Architect of Empire* takes a serious look at Blaine the Anglophobe and anti-British nationalist who defined Great Britain as the U.S.'s primary global rival and the chief obstacle to American economic and political dominance in Latin America and the Pacific.

Finally, Crapol looks at Blaine as the transitional figure who helped forge the economic expansionist mentality that underpinned the late nineteenth-century burst of imperialism. *James G. Blaine* is an excellent resource for scholars and students interested in America's imperial past and the figures who played key roles in America's global economic development.
