In *Hiding the Stranger in the Mirror*, Dr. Cameron Camp writes with wit and compassion, aiming to help his audience better understand how dementia affects memory, and how memory loss may affect behavior. Going against conventional wisdom, the author stresses that the key to successfully caring for persons with dementia is to focus on their strengths rather than their weaknesses---to see the person and not the disease. His entertaining and insightful book examines cases based on real individuals to illustrate common challenging behaviors and how to approach these challenges. Readers act as detectives and are given the tools and the resources to understand why persons with dementia do what they do, and how to solve their own cases. More importantly, the stories lead the reader to new ideas, new ways of thinking, and a new attitude towards persons with dementia.
